Art Insider: SOLEILLE Gallery

Fusing the worlds of art and design through an immersive, multidisciplinary narrative.

07.21.2024 by Maya Boyd

Located in the heart of the Balearics, SOLEILLE Gallery is a fresh and experimental space that bridges the space between architecture, design and art. Founded by French Mexican Gabriela Puig Soleille and curated by Mexico City-based Martin Michaelis, the gallery's immersive approach explores the intersection of creativity, craftsmanship and culture through a carefully selected array of artists and pieces.

From Mexico to New York and South Africa to Europe, SOLEILLE Gallery reinterprets the dialogue between the global art spheres and how the collective perceives them, navigating the ever-shifting terrain of contemporary design and art, continually inspiring and elevating standards. During the edition of Ibiza's CAN Art fair, the gallery hosted Perfect Imperfection, a temporary installation by Soleille Gallery that included groundbreaking works by the likes of Ileana Moro, RA Workshop and Edaa. As SOLEILLE Gallery carves out a space within Ibiza's ever-evolving art scene, this Ca Na Negreta newbie is one to watch.
